Certificate

MOLYDUVAL Amadeus SI

USDA H1

We acknowledge hereby that the containing materials of **MOLYDUVAL Amadeus SI** conform to the guidelines of the FDA (Food and Drug administration) (USDA H1) for Lubricants with incidental food contact.

We continue to acknowledge that concerning to its use as lubricant in Food Industry we do not have doubts against this use. After § 31 of the German LMBG dated 15.08.74 (BGBl. part I., 95, P. 1945 (1974)) it is forbidden to use items so that any quantity passes over from the material into food or onto its surface, excluded portions being harmless to health, smell less and tasteless, and which are technically unavoidable. A transition of lubricant to food - presumed that the intended use as lubricant is presupposed - is, if at all, then only in technically unavoidable quantity necessarily.

This possible, unavoidable quantity can be regarded as harmless to health, smell less and tasteless due to the composition of the lubricant **MOLYDUVAL Amadeus SI**. Therefore we don't have doubts against the use of it as lubricant in Food Industry.

Sincerely

Thomas Hanemann
