

MOLYDUVAL

Biolube L Spray

Oil Spray for Food Industry

A high performance versatile lubricant for applications where incidental contact with foodstuff may occur, or where a clean, non-toxic lubricant is preferred. The used base fluids are released to DAB/FDA/USDA as well as the containing corrosion protective and wear protective additives.

Characteristics

- good anticorrosive properties
- good pressure absorption capacity
- infiltrates water
- Food grade, conforms to the NSF H1 regulations for use in Food Industry
- low odor
- clear and transparent
- good penetrative properties

Applications

- for gear boxes in food industry
- for heavy dutied slide surfaces at textile, packing, and plastics machineries
- for assembly of O-rings
- for bearings in precision engineering, for for-life-lubrication
- for cleaning and degreasing
- for chains in food industry, for packing and filling machines
- for rolling and sleeve bearings in food and pharma industry
- for bearings in music instruments
- as rust looser
- for lubrication point in food and pharmaceutical industry
- for cleaning inox containers and machines
- for anti-friction and sleeve bearings in textile industry

Technical Datas

Color		transparent
Base Fluid		paraffin, wax, alkan
Viscosity 40°C	mm ² /s	17
Density 40°C	kg/m ³	880
Pack Size spray can		400 ml

The content of this manual is based on our current knowledge and experience in the development and manufacture of lubricants. Because of the complexity of tribological systems, the effect of our products depends on many parameters, which we cannot assess and which influence we cannot evaluate. For this reason general statements about the function of our products are not possible. The information in this manual, therefore, contains non-binding guidelines, which should give the technical trained reader information on possible applications. The information in this manual does not include property assurances or warranties or guarantees to the properties or suitability of this product in a specific application. Prior to its use it is absolutely necessary to test this product in the application to ensure that the product and its use is safe, economical and fully suitable. It should proceed with due diligence. We reserve the right to change the information in this manual at any time and without notice. All previous versions of this manual are no longer valid.
