

MOLYDUVAL

Ferroxin T Spray

Multi Functional Spray with White Solid Lubricants

A light colour, adhesive penetrating and corrosion protection spray with PTFE. Special usefull for lubricating and preserving tools, screws, machine parts. It contains finest PTFE powder for reducing friction, increasing load capacity and offering emergency lubrication.

Characteristics

- good lubrication performance
- very good corrosion protection
- good penetration
- infiltrates water
- forms thin protection film
- looses dirt and residues
- free of silicones
- removes squeaking and creaking

Applications

- for lubrication and preservation of machine parts, screws, valves, nuts, bolts, springs, hinges, locks, etc.
- for loosening of seized or rusted parts, screws, ropes, springs, hinges, chaines, valves
- for conservation and lubrication of wire ropes

Technical Datas

Color		white
Base Fluid		Mineral
Viscosity Class	ISO-VG	22
Viscosity 40°C	mm ² /s	22
Density 15°C	kg/m ³	880
Temperature Range	°C	-30 -> +80
Content additives	%	PTFE
Pack Size spray can		400 ml

The indicated service temperatures are guide values depending on the lubricants composition and on the application. They may vary in case of special influences or ongoing use.
